👤 PROFILE

- I am an enthusiastic, detail-oriented front-end developer with experience in creating dynamic and responsive web applications using React / next.js.
- I'm well-equipped to leverage the latest technologies to build exceptional user experiences that combine cutting-edge features with elegant design.

🎓 EDUCATION

Faculty of Computers and Artificial intelligence, Helwan University, Information System Bachelor's degree
2016 – 2020
Very Good
Excellent Graduation Project With Honor Degree

📖 COURSES

Frontend diploma, (IT Sharks) 🔗

Sep 2023 – Dec 2023

I learned the basics of website design and reached an advanced stage in it and worked with React.js

- HTML / CSS / SASS / Bootstrap
- JavaScript / ECMAScript / Typescript
- React.js / Hooks / Redux / Intro to Next.js

👔 PROFESSIONAL EXPERIENCE

Trainee, ITSharks 🔗

Nov 2023 – present

I'm working with a team using React/next.js framework to create more projects

- 1- I achieved improvement in the efficiency of the code without writing nested code and without duplication and increasing the number of lines.
- 2- Writing repetitive parts on the page in the form of a component and recalling them whenever needed
- 3- Ease of modifying the component instead of changing it on every page
- 4 - Thus improving the site's performance
- 5- Currently I design web pages using React.js/Redux/Next.js

Frontend Developer, Egyptian Armed Forces, Air Defense Information System branch, Reserve officer
May 2022 – Sep 2023

- I worked with a team of software engineers to develop and refactor military-based apps.
- I trained more in web page design, and working with them helped me learn how to search to solve problems that arise with me, and how to read documentation.

🌐 LANGUAGES

Arabic (Mother tongue)

English

🧠 SKILLS

HTML | CSS | Bootstrap | Tailwind CSS | JS | REST API
OOP | TypeScript | jQuery | React.js | Recoil | redux
Ui/Ux | Git | SQL | C++ | Algorithms | Data Structures
Python | Flutter | Dart | Firebase

📁 PROJECTS

Chemical Experiment laboratory App,

Flutter & dart / Unity (Graduation Project) 🔗

Aug 2019 – Jul 2020

A website that helps conduct laboratory experiments in 3D using Unity, and a mobile application has been created

Movie App, Next.js project 🔗

Nov 2023

I worked with the team to prepare this project This is a Next.js project bootstrapped ,This site simulates movie platforms such as Netflix

Online Recycling Website, JavaScript HTML CSS 🔗

Nov 2018 – Jan 2019

It is a site that helps users benefit from reusing damaged materials to produce new materials, as countries have begun to resort to it in light of the successive industrial and technological development, but the Arab countries are still not interested in this process.

Online Shopping System, JavaScript HTML CSS 🔗

Mar 2017 – Apr 2017

It is a simplified site for purchasing, like Amazon, which was at the beginning of learning

👤 VOLUNTEER WORK AND ACTIVITY

Online's Student Activity, AC Member & Leader 🔗

2017 – 2020

I used to prepare a summary of the materials I had mastered and upload them to the YouTube channel and make a pdf of them. We used to create events to help the students and solve their problems.

🧩 PERSONAL SKILLS

Communication skills:-

- I have very good ability to communicate with very wide range of people with different backgrounds .

Handling skills:-

- By minimizing the choices for the client and solving problems
- Interactive and fast enough to learn new technologies
- Strongly creative and innovative

Team player:-

- I really enjoying working in teams its always more efficient ,quicker and more easy to all team
